

## **Sven Crone**

Lancaster University; iQast

Sven is an academic, founder, and speaker with two decades of experience in forecasting with AI/ML. As an Assistant Professor at Lancaster University, UK, his research on novel AI forecasting algorithms has received international awards, and led to 80+ publications with over 4000 citations, currently ranking him in the top 5 globally on forecasting with AI/ML. He is also founder of iqast.de, a university spin-off pioneering an AI/ML forecasting software for fully automatic demand planning in large logistics and supply chain companies, incl. Beiersdorf, Hapag-Lloyd, Essity, Johnson & Johnson, etc.
